Dear Occupant:

We have been selected by your building management to provide pest control services for ants. We are scheduled to service the inside of your unit [] AM to [] PM. When we treat for ants we will be baiting inside your unit.

It is important for residents to clear furniture away from baseboards and move any items that prevent us from gaining access to treatment areas.

Please note problem areas on this sheet and leave on refrigerator so we can target your specific needs.

You may see ants feeding on the bait for several weeks - do not be alarmed. Please give our products time to work and do not tamper with or spray the baited areas. If you are having ant issues after 30 days please contact your manager and we will come out to retreat if necessary.

Preparation work must be completed BEFORE our arrival in order for treatment to be done. NO EXCEPTIONS. **If adequate preparation has not been completed prior to our arrival a fee may be assessed by your manager or management company.**

NOTE ANT PROBLEM AREAS HERE:

Thank you,

Northwest Pest Control Inc., Portland
