Dear Occupant:

We have been selected by your Building Management to provide pest control services for roaches inside your home. In order to do the best possible job for you we need your help. **Please prepare as follows prior to our arrival:**

- **Kitchen:** Remove *everything* from all cabinets and drawers, and clear off the top of your refrigerator. Under the sink access is very important. If cabinets and drawers need to be cleaned, please do this before treatment.
- **Bathroom:** Remove *everything* from under sink, and empty cabinet contents.
- **Bedrooms:** Remove *everything from the closets.*
- **Halls/entryways:** Remove all items from hall/entryway closets.

You do not need to vacate your unit for this pest control service.

Preparation work must be completed BEFORE our arrival in order for treatment to be done. NO EXCEPTIONS. **If adequate preparation has not been completed prior to our arrival a fee may be assessed by your manager or management company.**

Due to the various stages of the life cycle of a roach, no single insecticide treatment can eliminate the pest at one time. **If you are having activity after 30 days, please notify your building manager. No additional treatment will be done within the first 30-day period.**

We are scheduled to provide service on _____-_____ [] AM [] PM

We apologize for any inconvenience, however to best treat your unit we need your assistance. If you have any questions, contact our office. Please let us know which complex you are calling about so we can promptly provide you with accurate treatment information. Our hours are 8:30am-5:00pm Monday through Friday.

Regards,

NORTHWEST PEST CONTROL INC.
